

FOR IMMEDIATE RELEASE:

Tragedy Does Not Discriminate. *PainPathways* Magazine Features Lisa Niemi Swayze on Caring for Celebrity Husband Patrick Swayze During His Fight with Cancer.

WINSTON-SALEM, North Carolina – March 15, 2013 – In *PainPathways*' spring edition, Lisa Niemi Swayze chronicles her 22-month caregiving journey with husband Patrick Swayze after his diagnosis with pancreatic cancer.

Swayze describes the difficulty of being in the spotlight at such a private time, and says reading in the tabloids that her husband was going to die made the road that much tougher. But as “realistic optimists,” the two became determined to make every moment more meaningful.

Like other caregivers featured in *PainPathways*, Swayze continues to raise awareness and cancer research funding. In 2011 she received an AARP Inspire Award, which recognizes individuals who are using “energy, creativity and passion to make the world a better place.”

FREE Digital Edition

PainPathways' digital edition, at www.painpathways.org, is a quick way to connect to resources provided within each article, and makes sharing them with others easy. Reader Cynthia Dillion says, “Thanks for your digital edition. I was looking for information on RFA and SI joint pain, and the article in your winter 2011 issue was just what I needed to find!”

Also in SPRING:

- New Research into the Origin of Fibromyalgia
- Understanding Spinal Cord Stimulators
- What is Pain Tracking?
- Caregiver Toolbox: Saving Energy
- Physician Spotlight: Dr. Steven Curley on New Cancer Treatment Research
- TENS: Using Electricity to Manage Pain
