

## **Migraine Expert Joins PainPathways Magazine Advisory Team**

Winston-Salem, North Carolina, May 12, 2015 - Dawn C. Buse, PhD, a clinical health psychologist and pain and migraine researcher, has joined the *PainPathways* advisory team. Dr. Buse is involved in the American Migraine Prevalence and Prevention (AMPP) Study and the Chronic Migraine Epidemiology and Outcomes (CaMEO) Study among other research projects. She is an associate professor in the Department of Neurology of Albert Einstein College of Medicine of Yeshiva University, assistant professor in the Clinical Health Psychology Doctoral Program of Ferkauf Graduate School of Psychology of Yeshiva University and Director of Behavioral Medicine at the Montefiore Headache Center in New York, NY.

At the Montefiore Headache Center, Dr. Buse provides clinical care, including assessment, cognitive behavioral therapy and biofeedback. She teaches biobehavioral techniques including relaxation training, diaphragmatic breathing, progressive muscle relaxation guided visual imagery and mindfulness, and shares these techniques through relaxation exercises that are free and accessible at [dawnbuse.com](http://dawnbuse.com). In her advisory role, Dr. Buse joins a team of twelve other national and international pain management experts.

To learn more about migraine and Dr. Buse, read transcript highlights from [Dr. Buse's online discussion](#) hosted by *PainPathways*, see her online review of [nonpharmacologic treatments for managing migraine](#) or visit [dawnbuse.com](http://dawnbuse.com).

*PainPathways Magazine, based in Winston-Salem, North Carolina, is a quarterly print and digital resource for people living with pain, and physicians and caregivers who manage acute, chronic or cancer pain. To subscribe for home or office, visit [www.painpathways.org](http://www.painpathways.org)*
